This is my log:

[20:03] Trying to connect to server #1...Connected
[20:03] Secure link established.
[20:03] Welcome to RenGuard , MadIvan[DHS]!
[20:03] To launch Renegade, please click 'Renegade'.
[20:03] You have joined n00bstories.com AOW/CCM.
[20:03] Bad/Corrupted file game.exe has been found in your renegade directory
[20:03] You have been kicked from the server for cheating.

The problem is that i havent modified anything in my exe.Whats wrong?

game.exe is the RENGUARD file!

so his RG game file is being modified?

Either uncheck the "Automatically load Renegade on Startup" option in RenGuard, or don't use a hacked version of RenGuard.

You get a bad game.exe when you join a server before RenGuard has finished scanning your Renegade installation for cheats.

I noticed it happening to a lot of people the other week, including me. It usually just happened when I used +connect and joined in a hurry, so it's just for what Kanezor stated.
