choose the first one. Xwiz and make sure that your FdsDir. Is set properly.

Hope that helps

Ummm..lol i'm not quite sure. Nightma12 will probably be able to help you with this when he comes on.

The fds dir is where its installed on your HD. Most likely in
C:\westwood\renegadeFDS

Oh and make sure for nickname under FDS settings that its set to the same nick your using of FDS. That might be the prob
