I have this little problem with Walking. This never used to happen, it just recently has. When i use the keys W,A,S and D to manouver around he used to stop walking when i let go of whatever key. Now, for instance, if i was walking forward with the W key, and let go to stop where i was, he would continue to walk another 10 paces or so. This also happens with the other direction keys.. HELP because it is really really annoyin! Thanx xXx Ste
