ok so i got the first deacade 2 weeks ago (the one with all 11 command and conquer games on it) and i played renegade and went to play online and had alot of fun but then somone mentioned Renguard.com so i went to it to download it and i get a message saying i need to "Install Renguard into my Renegade directory!" and now when i play online people are cheating and i cant play on some because i dont have Renguard will someone please help me with this problem?!?!?!?

P.S i would show you the message its giving me but the file size is to big
