Only changes are to correct issues preventing these scripts from being usable:

JFW_Change_Character_Powerup
JFW_Send_Driver_Custom_On_Enter
JFW_Weapon_Change_On_Custom_Multiple
JFW_Weapon_Change_On_Custom_Multiple_Sender

get it from <http://www.sourceforge.net/projects/rentools/>

Now I move on to 2.6 (I have big plans already)

This is brilliant, and I am pleased that after all this time you are still motivated, but we need regular ports to SSAOW
