There is a guy on the net called "SuperShadow", who claims to be a friend of George Lucas and basically just makes up a load of crap about Star Wars. Any stuff you read about Episodes 7-9 probably came from him and isn't true. It's possible that Lucas will make more Star Wars films in the future, but I'm pretty sure he's stated there are no plans for a new trilogy.

Good, Star Wars needs to die. There should be no room in television OR movies for poorly written, crappily acted science fiction.

Yes, long live Star Trek! Even if the USS enterprise episodes are nowhere as good as Voyager.

Interestingly enough, no Trek series has lasted longer than 7 seasons.

Stargate > Star Trek

Stargate is just incredible and it's unfair to compare and Sci Fi series to it. The actors, plots, and feel are just great.

I hope they don't gay up Star Wars to make it more TV-friendly.

ya man stargate is the best sci-fi show that still shows new episodes . Babylon 5 wich unfortunately only lasted 5 seasons was the best show ever though, but that was all it was meant to last for which is cool.

The new Battlestar Galactica is the best sci-fi on tv right now, IMO.

Stargate > Star Trek

They do intend for it to end after 7 seasons...7 year missions...except for Enterprise, which just made me sad.

Are you a Voyager?

I'd be interested in a C&C show. I doubt it'll do well on TV, but maybe if it were released over the internet?

Actually I take it back, it'd be so overly cheesy and macho, it could be another crappy xXx movie...

Has anyone even tried to make a machinima with Renegade? It seems easy enough to do over GameSpy or WOL

Exactly.

He also claims to be a 'close friend of George Lucas, and that he inspired production on Episode III' while in reality, George Lucas publically announced he had no idea who Super Shadow is. He has never even met the bloke.

SS may dupe alot of the younger Star Wars members, but 99% of the community out there knows he is a fraud, and hate his guts for being a despicable liar.

There was a thread here previously about making a machinima for Renegade. Its lost somewhere in the old posts.

There is a GDI vs Nod thing though. Just don't know where it is.
