The majority of posts on that forum do not inspire much faith in humanity.

lol, canada, no one ever said your website was the official roleplay2 website.

Me and canada are the two main Level edit workers for RP2 now, since napalmic left. We have actually made alot of progress, more weapons, more vehicles.

Also, canada, your website has outdated scripts available, should be 2.9 now, not 2.8

And i highly doubt beta3 will be out within a week.

2.9.2 now.
