I \*think\* the 'box thing' he is referring to is renguard....

What version of windows are you running, and have you had renegade working before?

1.What's your system info?

2.Do you got the First Decade (a compilation of almost all C&C games)?

3.Have you tried putting no disc in the drive and opening C:\westwood\renegade\game.exe?

well i downloaded renguard and it turned out i had a corrupt alway's.dat file and 3 of my maps were corrupt but renguard fixed it

thanks though
