running Ren but got kicked off for not.
was running 1.03 but the admin kept kicking me off.
is there a screen to send them to show it running.
on gamespy the renguard field was false on the server.

yes
gamespy ID = renguard ID

You say on gamespy the renguard field was off. So that means that the server was not running renguard? So he didn't kick you for not having RG...

a message was posted: i was suspected of cheating.
then i was not running renguard.
then i was booted.
