Hi all.

I changed y,x,z position into the CTF.dat

I worked on the CTF.dat (x, y Z) from the CTF mod. Only the problem is now, if normally the play too ends its sol still keeps running it. thus I do not have 4 times signal conquered however the play end why?

CTF stinks. Everyone just buys ramjets and that takes all the fun out of it.

I've changed the position of the flag in the CTF mod, but when the flag has been successfully captured four times, the game doesn't end. Why?

I've changed the y, x, z position in CTF.dat

The problem now is, when the game normally ends it keeps going.

I've captured the flag on Volcano four times but the game doesn't end.
