When I click on the Renegade shortcut after installing Renguard, it says "Error: Loader couldn't initialize service!". Can anyone help me with this problem?

I'm using Windows XP professional, but I can't remember the exact specs of my machine. My machine's an AMD Athlon. Renegade works fine after uninstalling Renguard.

Check if your firewall doesn't block game.exe (game.exe and game2.exe need to be allowed to contact the Internet).
