You didn't download Renguard, you downloaded a server core patch.

Download Renguard from here:
http://download.renguard.com/rg_downloads/RenGuard_Setup_1.0 3.exe

no now it says buffer over run!
dont know what that means can you help again please
thank you Alan.

right click on My Computer, select Properties, you should see something similar to the piccy
below, the arrow shows where it will tell you your version of windows.
