You can make the polygon count for less then that, and you must be very bored if you wasted five hours on that. What did you take the long way to make that.

I know the polycount could be lower. Your point? And I didn't spend 5 hours straight on it. That's 5 hours total. Post something better, with less polys, done in less time, and I might actually care about your opinion. Until then, you're just a troll.

Nothing to do with Renegade, no. Although I might release it for others to use.

Wow, if you can make something that good in your spare time, I would like to see what you can make when you're really working for a reason! Good job.

I'm lead level designer for 3000 AD Renegade is a hobby I'll do the interior next, then maybe start another building. Depends how much free time I have over Christmas.
