NIT-PICKING:

Instead of dealing with a comment or question directly, the idea here is to focus on some insignificant detail to evade the issue or buy time to think.

"We need to define just exactly what you mean by _____."

"Your last sentence ended with a preposition. Please restate it properly."

"Your caps lock is stuck, your post is meaningless now."

Quote:Haha...good comeback! Too bad the comparison doesn't change my argument in the slightest; you're just bitter about being proven wrong. NAME IT:

To the feeble-minded, if there is a NAME used as a label for IT, then it must be wrong, even if it isn't. The NAME, now a "proof" of sorts, can be used as a sledgehammer if IT comes up again.

"The case you just made was first made by Edgar Sullivan in the late 1800s and was quickly disproved. The 'Sullivan Error' inevitably occurs to people when they first start studying the subject."

"Your line of reasoning is called the MacGregor Phenomenon."

"Why, that's Calvinism!"

You're still avoiding the point, lol... None of that is pseudo-intellectualism, it's common forms of arguing that are simply designed to evade a point when you feel you can't argue one.

I'm just going to assume that you didn't read the definition of "tunnel" that I showed everyone.

tun·nel P Pronunciation Key (tnl)
n.
An underground or underwater passage.
A passage through or under a barrier.
Obsolete. The main flue on a chimney.

That hallway is not traveling under a barrier, and simply assuming that it *was* traveling under one lead to improper usage of the word. The wall isn't a barrier, since the hallway wasn't built *in to* the wall; the wall was shaped around the hallway.

Subject: Re: Fantasy Wallpaper #2
Posted by [JohnDoe](#) on Fri, 19 May 2006 20:14:40 GMT
[View Forum Message](#) <> [Reply to Message](#)

Maybe it leads into a mountain, or underneath a big building or whatever...you can't say that's impossible by just looking at the picture.

The point is that you have to assume in either way. You see it as a hallway, someone else may see it as a tunnel. They're both assumptions and both valid.

The only thing you can definitely call it is a passage.
