my friend has a problem, that stops him from playing renegade, with renguard:

renguard.exe

crc mismatch error

can anyone help me fix it.

Quote:I'm getting the message: "CRC Mismatch Error"

This error message means that game.exe and game2.exe are the same file. This may happen if you try to install with the installer and the safe installer. You may need to reinstall Renegade to replace the now-missing game.exe.
