If you go see this movie, STAY UNTIL THE END OF THE CREDITS. We got a great laugh at all the idiot smokers who so desperately needed a puff of their disgusting cancer sticks that they missed the ending after the credits.

So THAT is why half the room left before the credits were over!

Getting the girlfriend to sit through the credits was a challenge. Was worth it though! Thanks for the heads up.

That movie was a waste of \$10. Though it was a good laugh considering 90% left at the credits. We have a ultra screen in our town to and it seats a lot more than the average theater.

oh btw, all the last little bit does after the credits is set up for a 4th one.

X-Men 4: Rise of the Machines 2.

Serriously though? I thought it was "The Last Stand". I'm a bit disapointed that they're setting up for another one, what with the after-credits thing and that guy who plays Gandalf maybe getting his powers back...

This is how he should always be described.

I must say that I was very disappointed in the movie. Not bad, but not the best it can be. I want the good director back !!!!!

Heh... oddly enough, I had the same issue. At first, she was patient. If I had rope, I probably would have just tied her to the chair.

What happens? assuming it wasn't what Dave Mason said. I'm pretty sure that was sarcastic.
