Here is better idea: become mod, and ban Moee from your server because the less idiots you have in your server, the better.

simple

P.S: I know that it is probably not his WOL name, but ban it anyway

Heh you could password the server and redirect to a quiz which only 1337 gameers could answer. The prize for doing that would be the password, no more n00bs! Or you could just join a regular server.

Why take all that effort? Just change the password to the hostname and say in the title Password = Hostname. n00b wouldn't be able to guess it!

A: It's not even a fucking tactic, it's an abuse of mod powers.

B: Coming from the guy who told mapmakers to give GDI every building and five AGTs and give Nod a single powerplant...?

C: We know you're the same person as Moee. Unlike you, we aren't idiots.
