Golden Gun Mod is here... code:

http://dynamic4.gamespy.com/~ammo/ren/files/download.php?file=Golden_God_Mod_v2.0.zip&type=4 edit: Note only use this if you do not play online with Renegade because I am pretty sure it messes with things in the always.dat file so everything in WOL is Version Mismatch. Only use this if all you play is Single Player or Multiplayer Practice. [December 24, 2002, 19:51: Message edited by: rjs87]
