Sensitive, why havn't you left yet? The fact that you're a former member coming back under a new name is irrelevant. People don't want you here. Please, make this easier on both parties involved and leave voluntarily.

If you're truly oblivious, you're being accused of being a member that was banned June 1st. You joined after that, so you're subject to suspicion. You type as badly as he did, and you're also from Canada. Now, Crimson can either confirm or deny our suspicions.

This is why certain people who use the Internet need to be tracked down and slowly dipped in acid, feet first.

I still hold tightly onto the idea of issuing a world-wide "internet test" that weeds out all the idiots and computer-illiterate people and limits them to sites like disney.com. That way people who shouldn't be online won't be bothering the rest of us.

Sort of funny that you said that. Has it ever come to your mind that this guy is just acting this stupid and is laughing his ass off at you guys getting all worked up?

I find the way he can butcher the English language, insult people (poorly, I might add), and act like a general fucktard and yet claim he has done nothing wrong (or, as he so eloquently puts it, "rong") to be both shocking, and highly amusing.

---

EDIT: I second the "Internet literacy test". Though people would probably turn off their stupidity for it and then just start being dumb, it would at least weed out the genuine idiots.

Furthermore, if he has evaded a ban, drop the banhammer (again.) And, from the presented evidence, the case is quite strong against him.

It HAS occurred to me, but I couldn't even last that long typing that poorly, and I usually beat the dead horse on things like that.

I believe he may be trolling, but he is not the only one doing it. Seems to be several, I may go so far as to say a group of trolls posting about the forums. Hell, I think you may be a victim yourself on a thread in the politics section. I believe Warrento has been leading you on, or vice versa.

<http://www.urbandictionary.com/define.php?term=trolling>

1. trolling  
197 up, 19 down

Being a prick on the internet because you can. Typically unleashing one or more cynical or sarcastic remarks on an innocent by-stander, because it's the internet and, hey, you can.

Guy: "I just found the coolest ninja pencil in existence."  
Other Guy: "I just found the most retarded thread in existence."

Well, then the thread in the politics section is exactly the opposite. It's a sophisticated debate without insults...I guess mision08 just couldn't understand too much of it.

Your thread sucks, and your English is terrible. Even if I ever did have any intention of finding out

what my connection is, now I don't just because you want me to. I get about 100 ping and 40 FPS on the n00bstories server, and that's good enough for me.

Thats odd, I distinctly remember you posting troll like comments before, and after I posted the definition. Maybe it was to difficult for you to understand.  
While you remind me of a pastor, I didn't bother to read that thread. I strictly went on the structure, length, and fact that you were keeping it lit. I already thought then, as I do now that you are trolling. But thats neither here nor there.

Good for you...too bad I don't read each of your posts since you never have anything important to add, ever.

Is that trolling too? Now be quiet and stop trying to appear clever...you can't even distinguish between 'too' and 'to'.

You're an idiot. She banned YOU, regardless if it was just a nickname ban or not. You're evading that ban, and you really do need to be banned permanantly.

Maybe because I don't type like a complete, incoherent moron. I also don't ban evade. That's probably a good couple of reasons as to why I'm so arrogant with you.
