www.joaorp.com/yano Does not have much being since it is a temp page. www.yano7.com Will be the home of Yano's Texas Server, YNB Clan(For both Generals and Renegade), forum for most any type of support, opinions and reviews from me and my staff for just about anything. I hope in this way I can help other as others have helped me. I have the basic layout done, now I just can't decide whether to use Macromedia Dreamweaver MX or Adobe GoLive 6.0 to finish it off.
