I have a problem with WOL. Mserial number seems to not work this past month.

I've tried using the serial changer but I think I might be using it wrong . Help anyone?

Reinstall renegade with a valid serial.

If your using an invalid or shared serial then yes. If it's a legit serial that no-one else uses, post on <http://strike-team.net/>

I wouldn't bother posting there. They'll just tell that you're lying and that you have to buy a new Renegade copy.
