If you can't find the e-mail, then try to look in your junk-mail. It usually ends up there...

AoA is dead now, They quit cause they were being called cheaters. Which it was proven that several of there members did... They now formed WoQ.

a simple name change won't help them try to get everyone to forget that they cheated.... *updates bans to WoQ names*

Agreed ^^

My question is just who were the cheaters... I never got around to that. I just know that they cheated (Seen SS + logs).

LOL.
wow its amazing how the info gets around about WoQ.

the main cheater of the clan is the leader himself, he got kicked from TT-Clan for being found out he was cheating in servers, using bh and all this bs. admins in TT did a investigation on him and went undercover with random nicks acting as if they were cheaters and got a hell load of admittance outta him and proof

rofl death u can talk some bs some times, what about that time me and cyril beat your best playas in a 2v3 for 3 matchs? eh ? was a G_g ey? *cough* owned *cough*

Nobody should be allowed to use the tag AoA. It disrupts the natural course of things. AoA should be remembered as a great clan from the beginning times (of Renegade), not a bunch of immature little brats.

there was an AoA on the WOL ladder early on, too, but i think jball used gamespy.. or at least he may have to join Unrules, if he still plays there, or so i've heard

I'm talking about Angels of Armageddon like Acey said.

Also, I don't use Gamespy, and I never have. If there's a jball, it's not me... and I don't play UNRules. I don't like Alkaline.

Yeah, i've heard they were pretty good in their day, used to keep GSE on their toes.

Thye made a brief comeback a few months back, we beat them and they decided to pack it in again.

Yeah, they were pretty much in par with gse until me and roh and some other main people came back(some gse members were inactive for a bit due to generals), AoA did come up with the unexpected MRL rush on city_nonfly, where we played i think it was a practice against them and they did like 5/6 MRLs and got our powerplant except we managed to defend properly enough and attacked with enough people on the bridge to keep them held back enough as to hold out for the game and we won We managed to do the same MRL rush to other clans just for a quick win :)

Edit, and yeah maybe it wasn't you but someone here plays in unrules i don't remember who it was you.

As for the AoA on WOL, i heard they were pretty good too, but i wouldn't know, they didn't last long

I don't know if any of us are talking about the same AoA. I'm talking about the AoA from 2002. One of the BIG clans alongside DOM and FUD.

<http://www.aoa-clan.de/xtern/> that's the gamespy one(They're german and mostly euros), i guess it's still running. You're probably talking about the WOL one which i mentioned, I don't really know what it stood for if it was the same, but yeah... As far as i remember both were pretty good
