I've been a skinning for maps. I'll post them up for download. Can use in maps/mods/whatever. And please, ask to post them on your websites! Just credit me!

Beta Light Tank

Flame Trooper (beta)

Beta Minigunner (Nod)

Yes, I KNOW his face looks odd, this has been fixed, btw.

Comments?

These Skins are Skins of only average Quality. But I hope that you didn't change the flame color for public like being shown on one picture.

Because editing the flames (the file e_master01.dds) will also affect the flames from the Flame Tank.
