Do you find yourself alone alot, depressed, thinking of committing suicide. is the world closing in on you. Do people disrespect you. Are you called asshole everywhere you go, do people give you the number 1 sign while driving. Does the smell of ben gay excite you while your looking for your viagra. Does your dog look more inticing then your old lady now days. Have your balls shrivled up and died for the most part. Do you feel the need to belittle others cause you have a small penis to make yourself feel like the big man. Do you put others down cause yourself esteem is in the crapper. Does life just generally suck for you and you feel the need to lash out at others.

If this describes you and you want to demeene others and have them beg at your feet. Grovel before you cause you have a small penis and this makes you feel like the big man. If you read up on history and the nazi party seemed inviting. then i have just want you need.

Do you often times find yourself struggling to find the proper punctuation marks to fit into your sentences? Do others tediously point out your mistakes to the point of where you just want to break down and cry? Are you finding yourself unable to ask questions, and find yourself only typing declarative sentences? The answer may be as simple as the questions you are trying to ask. What is this miracle punctuation mark you ask? The question mark! Yes, the question mark, that odd little symbol at the end of sentences that tells others you are trying to ask a question. By using this, you could solve many of your linguistic issues and find yourself to be a happier person because of it! Yes, it really is that simple. Go ahead and try it. You will thank yourself for it.

I agree with you that UNRules fails, but better sentence structure would be better for us all, and you wouldn't be subjected to all this ridicule. It's a win-win situation, and it's not much harder to hit SHIFT+/? to get a "?" instead of a ".", right?

I also find it extremely irritating and annoying to read. it's not because we're being grammar police asshats, it's because it bothers the crap out of us and we suggest using question marks in the future so that you don't get crap flung at you all the time.

i have noticed a decline in the amount of players they have. Whats worse is when you do play their are so many noobs you dare not get out of your vehicle to repair, because it will be stolen by someone on your own team. Also its so hard to get someone to work with you to rush. Everyone wants to be an sbh these days.

I play in renwarz right now. N00bless every now and then, but i prefer newmaps.

UN's just a bunch of asshats...yeah they run it as a clan server, but Alk sells it off as a great public server....but holy shit you have to read their rules...

tthom is actually going through logs finding anyone that spoke ill of UN to ban them...omfg....NOOOOOOOOOOOOOOOOO someone said something bad about that asshat? Holy crap...call the cops...

Alk had it going good for a long time...his hands off approach is what's led to their delin

---

IMHO...power hungry asses joined and decided to make it their personal server and force others to abide and because tthom feels that they are superior, no matter how fucking stupid a member or mod is, they are right...

Hell...people get kicked and then banned for things like shooting the OB on Sunken and a mod cries that it's B2B (not one moron here thinks B2B is possible on Sunken) or a player places a nuke for a distraction a few days ago and that same mod is kicking them...lol....it's hilarious to read the reasons people get kicked and banned...funnier ones are when people mock other clans...lol...that's kickable too, if the mod is in that other clan...hell...people like me get banned from the game for flaming on the flame forums...lol

Most of the senior members don't even agree with how tthom runs and ruins it....but they don't want him mad since, as you can read the forum, he is the Nazi Alk claimed me to be...lol...even though honestly, I never banned or edited one forum post like his boys do...and hell...outside of vulgar pricks...I don't think I banned anyone else...keep in mind it all ended before BH came out...I'd kick people, but never ban...I hated seeing the ban list...

But then again, lets keep in mind Alk clears the ban list every month...anal retentive assholes in UN go through and reban the people they really don't like...makes you wonder wtf is going on...Alk deletes them, assholes add em back...is Alk doing it just to piss off tthom or does tthom not give a shit about what Alk thinks...ponder that for a few and post your own answer...cause I don't know which to think...

It's an utter failure now like Renbattle was in the end...the wrong people got power hungry and didn't give a shit about the community...the servers that do...always prosper and keep it going...and the players know it...and the server owners that run those servers know that they are doing right...to them I say thanks!

That isnt what got slayer kicked out of gde. People were very upset he didnt drop the issue with UN and carried it on for over a year and wouldnt let it go for anything. Even when i asked him to i was called a un sympathizer. I had so many people come to me during that time and ask if i would speak up and ask him to knock it off so i did.

The reason people got so pissed off at slayer was he was reading other peoples pms. He accused me of it but i never have nor would i ever. Those who know me can you tell you that. I wont mention names but when i said hey someone in our clan is reading pms, they only had one name to guess as to who. Thats what got him kicked, was his own actions and the fact that many did not trust him.

Personally I'd like to see who thinks which applies from above...does Alk think tthom and his BOS's are bullshit, or does tthom think Alk is an asshole for deleting them every month and making the nazi ban crew sit in IRC running ip checks to reban people for no reason...lol

That's the sad part...they are so stupid and bored with life, rather than play, they'd rather hunt and and repopulate their ban files that Alk clears out...

My personal feelings are that Alk is ok for the most part...he's just hands off and he doesn't correct or care to deal with tthom as long as tthoms tossing is the rest of the server money because if tthom were put in his place, I bet he'd stop playing or even being a member and paying...hell I'll send in money if I can be a dick and it be ok...lol...

1st, before you make yourself look even more dumb...I don't have a wife...been divorced for a while...and she never played Renegade when I was with her and you have no clue who the hell she is or was...

Thanks for trying to be smart, but proving otherwise...stick to something you may know something about...

2nd...Alk didn't start it so UN could shit on others...he started it to be a great public server...which it was for the longest time...till he became more and more hands off...

3rd, I will agree with the statement now as they care less and less about anyone that isn't UN and even more so in how a mod or two abuse players cause they feel like it...idiotic attitudes like that are what make it a failing server...try counting when it is full and see how many times you run out of fingers counting regulars...there used to be almost all regulars in there and it would have 10 or more 24/7 going in there...now it's just random players and others have found other servers to migrate too...including UN's own members and mods...that tells ya something too...

Anyways...back on topic...last night was another example of the players they've driven away...they had a whole 8 players in Newmaps for the longest time...felt weird playing in FnFall and n00bstories seeing all those regulars having moved on to those other servers tired of the abuse and antics...

Although funny enough, Dude4NL in FnFall...lol...I join on Walls Flying as Nod...get an apache, kill his apache that he had stolen from Nod...then I kill his hotwire...he calls me a n00b, I call him a loser, he starts PMing me that he'll kick me if I ever do it again...which I tell him go for it...and he did...lol...someone give him a baby rattle...lol...poor sports rock! He outta mod for UN too...

Dogg wrote on Sat, 24 June 2006 10:25Anyways...back on topic...last night was another example of the players they've driven away...they had a whole 8 players in Newmaps for the longest time...felt weird playing in FnFall and n00bstories seeing all those regulars having moved on to those other servers tired of the abuse and antics...

Although funny enough, Dude4NL in FnFall...lol...I join on Walls Flying as Nod...get an apache, kill his that he had stolen from Nod...then I kill his hotwire...he calls me a n00b, I call him a loser, he starts PMing me that he'll kick me if I ever do it again...which I tell him go for it...and he did...lol...someone give him a baby rattle...lol...poor sports rock! He outta mod for UN too...

[BR]Kick is just like that to. If you criticize him at all you get kicked out. Once he got an apc then asked all us hotties to jump in for a rush. Then he attacks 2 artys when he could have clearly driven right around them. He could always shoot while driving by them, but no he wanted to fight them both. We got out to help repair the apc, but in the end we all died.

Got back to base did the !noob kick Moron apc driver.

Just want to say sorry how he acted, and let you know he will be taken care of.
