Some guy on WOL told me that they were making a C&C Renegade 2 Reborn which is supposed to be released in 2007 or 2008- Is this true? I have heard nothing about this.

Thats a mod for renegade though, he said it was going to come out in stores as a whole new C&C game.

Not likely. Renegade didn't sell nearly well enough for its sequel to get farther than its baby steps before being axed.

Nope. Only C&C3 is coming out in 2007, afaik.

Renegade 2 was (apparently) to be set in the Red Alert Universe, anyway.

It's the best online Shooter I've played. Single Player coulda been better though. Was alright.

Yeah, they should have made this a squad based game, not just FPS with very "helpful" allies. I think it would be cool if they made this game so that you could be in command of several units that would help you with your mission. I know, they would be pretty dumb, but it would be better than nothing.

Hey, good idea! You press caps lock to bring up the squad system, where you can also apply to be commander, who can call in Orca airstrikes and stuff...
