I followed him around after this ban and he got banned from servers like Ren_archive and UN. See the attachments for SSs. He uses a dynamic IP with bigpond.net.au as domain.

I was nuking at the pedestal, and then I killed a few people with a Timed C4 (shows up as remote because that's what I was holding at the time). After I died and one second after the c4 killed spyro, I got a warning in the IRC admin channel that Spyro did a gigantic amount of disarming damage to the beacon, and then temp banned him (I don't have the power to perm ban).

I don't think he uses Renguard. This is just an advisory to watch him closely if he joins your servers.
