Oh baby.

"Aircraftkiller, who claimed to be completely in love with his second girlfriend, bought her presents, as every good boyfriend would do. From ebay he bought the most beautiful dresses he could find. His second girlfriend, who for social integrity purposes will remain anonymous, received these dresses gladly.

One day, after a nap, she came into her bedroom and found her dresses, pantyhoses, shoes and more sprawled out on the bed. She assumed he was seeing a girl, which was not that bad in itself as the whole relationship was one big façade to make him look good to begin with. Looking for an explanation for this phenomenon, his girlfriend went looking for Aircraftkiller, who shortly thereafter walked into the front door in his underwear. When inquired as to his recent whereabouts, Aircraftkiller shrugged it off with a generic "Nowhere". As for the women's clothing on the bed, he told her they were meant for her.

Later on she was looking for some pictures from their shared digital camera on Aircraftkiller's computer, and ran across a folder that contained pictures that are best left unseen for everyone. Recoiling in horror, Aircraftkiller's second girlfriend laid her eyes on actual, high resolution photographs of Aircraftkiller wearing aforementioned dresses Aircraftkiller bought - not for her, but for himself. Upon inquiry, Aircraftkiller explained his girlfriend that she wouldn't understand why he dressed up like the pretty little girl he secretly was on the inside, because she did not understand how it was to live as a man, knowing you should have been born a woman. In the process he blamed God, because He, in his infinite wisdom, decided that Aircraftkiller must know what it's like to be on the other side. Truly, the LORD's ways are not our ways.

Soon after that, the pictures were dispatched to an unknown location, if they still exist."

I'm not from 4chan so I don't particularly care to know what new term you're trying to label me with.

Oh, and you poor soul. Your angst can't be released in other ways, can it? I hope you realize that I kept my attacks out of personal affairs. I never went out of my way to dig up your mistakes in life, and I have a conscience when it comes to what things I'll say to someone online. You know, because there are some limits that you just don't cross... Things like good and evil are a great

concept to learn about when you think of morality and situations like this.

Of course, you'll say otherwise, but I bet you'll cry foul and whine constantly if you ever experienced what happened to me. Feel fortunate that you don't have to deal with people knowing intricate secrets about your past that no one should have known, anyway; finding out only because of the malice of one girl who only apologized for what she did when she saw I could do the same thing to her... Exposing all of the shit she was lying about online.

You need a reality check, demin... Seriously.

You're such an idiot, Aprime. Do you have any idea of what it's like to live 22 years feeling as if you're not the right gender? Of course not, you have it a lot easier than I do. In addition to the shit I deal with just to make a living, I have to deal with feeling as if I'm living a lie and that I was one of God's funny little jokes. I hope you get a good laugh out of it, perhaps karma will reward you with your own secrets exposed to the Internet so you can be humiliated by idiots. I swear you people have no concept of morality or humanity... Or maybe you do, and just choose to disregard it because I've bashed some retard's shitty ass levels and textures. Shooting you with the equivlant of a BB gun definitely warrants being hit with a sniper rifle! Better not play paintball with some of you, you'd start firing real guns because someone dared hit you with a little pellet of paint.

I'm in no way ashamed of who and what I am. So if you're thinking you're going to ps0t here and make me feel like some piece of shit that's inferior to you, please think again and don't waste your time.

I know I'm not female. Amanda aka Jadame in IRC knows he isn't, either, but that doesn't stop him from wanting to be a girl. You know you'll never earn millions of dollars, but you still dream of winning the lottery... You know that supermodel will never sleep with you, but you still dream about her.

What makes you any better than me, jackass? Is it because I don't fit into your little categories of what humanity should be? The last time I checked, I didn't follow many rules and it shouldn't be a surprise that I don't do that in reality either. Of course, I'm going to be called gay now... I'm gay, right? Come on and say it. I bet you're just itching to do it. "The whole reason he ever said any of those insults toward our shitty maps is because he was gay and never wanted to come out with it!"

hahaha. That's so far from the truth. I'm nowhere near gay. I'm happy as I can be and I have no issues with anyone knowing who I am... But if you're going to mock it, why don't you go ahead and be the bigger man here - post your secrets for the rest of us to laugh at? Or are you too much of a coward to do it?

I was going to lock this post or move it to the silo, but it looks like Jonathan is doing a decent job of defending himself, and so far its a halfway normal discussion and not a stupid flame-fest.

Please keep this a real discussion...if it turns into something ugly I will lock or move it. As you know we are very tolerant here as far as censorship and moderation goes, but I don't think its right to just outright pick a fight and kick people when they are down.

Jonathan seems to be taking it seriously, so if you want to debate with him how he should live his life, please do it in an intelligent manner.

They call it humor where I come from. It's actually nice to know that you're acknowledging that you don't feel you're the right gender after supposedly bashing Jamanda for what he (unless he's a she now, I don't know, I haven't been able to follow what was happening in #n00bstories for say, the past year?) was doing, and that is something I, somewhat, respect.

You know why we're getting a "good laugh" out of your privacy, seriously, you do.

No concept or morality or humanity? Please, look at what you've said in the past before accusing us of such things.

Because I've bashed "blah blah blah", actually, your opinion were and are still of nearly no importance to myself and other people, unless they're or were voiced in a constructive fashion (speaking of which, what the fuck is up with you? You act like a fucking anime fairy on DeviantART, and by that I mean that you're being friendly to everyone, oh... I think I know why, having friends on DeviantART means getting known, and getting known means more page views, and more means more people who see what you're selling (also known as DeviantART prints), and more people who know you "shop" means more customers, and what does more customers mean? More funds! And where do the funds go? In those now famous lunches! At least this time, it's a legitimate source of cash!)

if you're really thinking that you mean more than anyone else here, I'd like to remind you that all humans are technically equal, and that the fact that you've made a truckload of work (not all of which is good, despite what you said) doesn't make you superior to a point where you have the right to be condescending towards other map makers and such.

My objective wasn't trying to make you feel like a piece of shit, it never was, but there are things that you should be ashamed of other than your little experiences, but that's likely never going to happen anyway.

Yeah, I think we all understood that you knew you weren't a woman at the beginning of your message, and yes, you can be a girl, thanks to modern medicine.

Nothing makes me better than you, except the fact that I know how to make a budget and how to spend my money, unlike you. Which categories are you speaking of exactly? If you REALLY happen to be a homosexual, it wouldn't bother me at all, it's something I accept as a Canadian citizen.

What's wrong with a little mockery, sir? After all these years being mocked by you, why couldn't we return the favor? Because it has to do with your personal life perhaps? Well, you just had to make sure that Sarah wouldn't share that part of your life with us, not by punching a hole in the wall or by employing violence (verbally or physically), but just by making sure (by the means of a simple discussion, or such).

Blah blah I'm tired.

EDIT: Yeah, if I didn't get your point, see the line above... Because all of this shit and more kept

me awake for a very, long, time.

I'm going to put this how I have thought of every insult you have ever hurled at anyone on this forum.

You my friend are being insulted, libeled, maybe even slandered over a text based bulletin board on the internet. Anyone can be anything on the internet, you just happen to be the asshole of the internet. Xptek could have posted this and you could have just denied it because the internet is serious business. But no, you decided to divulge what happens to be one of the most disturbing things I have ever heard from you. I personally don't care what your sexual preference or gender may be. I just found this a good laugh and it could have stayed that way. If anyone is to blame for the outcome of this thread it is you. You're an idiot, good day sir.

OK, all of your children have had your laugh. This is disgusting on so many levels. I'm sure MOST of you have issues in your life that make you either THINK you're socially unacceptable or actually make you socially unacceptable (a weight problem, bad acne, too skinny, etc). Big deal. The idiotic "The internet is serious business" bullshit does NOT apply here because you are making a personal attack on someone that crosses into real life. Does he deserve it? Maybe. We all know he's not the nicest person ever to come across this place. But while it's one thing to make fun of someone's work or someone's opinions on something, it's crossing a major line to exploit a deeply personal problem that someone has.

Grow the fuck up. What he does is in the privacy of his own home and doesn't affect you one bit. Nor does it affect his work one bit. Stop being petty and retarded.

But is this really the way you like the forums here? What if people started posting content like this about you? How would you feel? How would you react?

If you can find dirt, dig it up. I'm not ashamed of anything in my life. I have issues dealing with obsessions, but we all have our issues.

I'm not saying that private lives should be public, but quit acting like we're all supposed to get along. It's not going to happen. Everybody is different. There are always going to be people who are the complete opposite of you. There are going to be people to disagree with you because they don't like you. Peace will never be achieved and to think so is just a fantasy dream.

I do not care if people do not get along on these forums or not. However, this Aircraftkiller business has gone on long enough. It is one thing to argue/fight here and there throughout the forums, but when you constantly pick on one person repeatedly like this, that is to far.

Not that I'm defending this thread, but the history between Aircraftkiller and this community is not exactly a nice one. Neither side has been very cooperative.

It's the way it goes. It shouldn't be this way, but it's just something that won't change.

Yeah, it is not pretty at all. And most likely, the battle between Aircraftkiller and his foes will not cease to end. As much as I would like to see the Aircraftkiller bashing stop, my opinion is just that: an opinion. I can only leave my words for others to read, and they make their decisions.

I've posted all I have to say in this thread now. J_Ball, thanks for the civilized conversation.

So if it was nothing new, what brought you to post about it here? Are you some sort of voyeur; does it bring you pleasure to feel as if you've hurt someone? My days of hurting over things like this passed long ago after I realized that people are not to be trusted. For as civilized as we are supposed to be, you can't even defend yourself without resorting to second hand information from someone that shouldn't have told you anything to begin with.

Of course, you don't care. Why should you? I called you an idiot. I said you were stupid... I bashed your works and shit all over them. But in response, you've done the same to me, and have repeatedly gone past that to attack my own personal life. None of you knew about this before Sarah decided, in her infinite wisdom, that it was a good idea to break my trust in her and spill secrets over the Internet to justify her hate and anger. She's since apologized, and realized what she was doing was completely and totally wrong; but that doesn't stop you, now does it? But that's okay, because you aren't hurting me... Just reaffirming what I already believed, that people like DarkDemin pretend to be Christian but can't even live up to simple life standards that it preaches. You say you follow Christ but when it comes down to it, all you follow is yourself and whatever makes you feel better. Not that I'm any better... But you're not going to find me digging around and attacking everything about you because I was so angry over you bashing my work.

There are things called acceptable responses... Those of us with a conscience know what they are. When you're hit, you hit back. If you're hit again, you continue to hit. That, or you walk away. That's how someone with morality deals with a situation... Defense in varying forms. When you're hit, you don't just take a chainsaw and start cutting off their arms so they can't ever hit you again. Forgive me if I'm wrong, but that's what a lot of you sound like and it's really not working on me.

I'm the one who lives like this, not you, and if it affects you so terribly... I don't know what to say beyond "get a clue" and focus on yourselves. You look like a pack of hyenas, God only knows how you act in real life.

Quote:But no, you decided to divulge what happens to be one of the most disturbing things I have ever heard from you. I personally don't care what your sexual preference or gender may be. I just found this a good laugh and it could have stayed that way. If anyone is to blame for the outcome of this thread it is you. You're an idiot, good day sir.

There's no sense in denying the truth... I think I have a pretty good record of being honest, I'm not sure about you though.

Quote:You claim to have some faith in God, correct? If so, why doubt his integrity? We all have our purposes, and to claim to be a joke not only demeans yourself, but it also mocks God.

I tend to think he's got a good sense of humor, otherwise I wouldn't have ended up where I am now in life.

Quote:I found it quite amusing after all this shit you've given Amanda/Jadame over the years.

I guess you're intentionally being obtuse, but most people realized long ago that Jadame and I "shout" at each other in IRC because we're fucking around and having fun... I guess you'd have to actually have friends to know what I'm talking about, xptek.

AircraftkillerI tend to think he's got a good sense of humor, otherwise I wouldn't have ended up where I am now in life.

I believe this too, but I don't know... thinking that YOU are one of God's jokes is something that I'm not so sure about. I don't think He would actually do that to man, but then again, who am I to know what God would or wouldn't do?

I asked you a question, answer it.. While I'm waiting on that, answer this, too:

What're you trying to accomplish? If you're trying to humiliate me, that failed... If you're trying to annoy me, that failed too. If you're trying to show me that you're personifying a lot of what's wrong with the world, bingo!

I don't pretend to be a christian, I never have pretended to be a christian. I am the least obtuse person on the internet. I tend to state how I feel and I don't give a flying fuck what anyone thinks.

You're still evading the question...

As I asked before, are your convictions so fragile that they cannot stand in opposition to my own?

This isn't how the forums always were. They were always:

Renardin: Reborn has modeled a Tunafish!

Aircraftkiller: That looks more like a retarded Flounder.

Renardin: Your opinion doesnt matter

Aircraftkiller: Roar

Renardin: Roar

People fought about their work not about their lives. This is ad hominem.

Demin, please, shut the fuck up. For your own sake, not mine... You really *are* becoming annoying if only because you can't seem to grasp the concept of reading and understanding. I guess I'm wasting my time, though, since you admittedly care for nothing but yourself and things like this are just another part of your day. You sicken me...
