I installed renguard to this directory

C:\Program Files\EA Games\Command & Conquer The First Decade\Command & Conquer Renegade(tm)\Renegade

when i start the game up from the regular desktop shortcut and then click on renegade it asks if i want it to automatically update stuff and ive tried yes and no. but then it says

Game.exe has encountered a problem and needs to close. We are sorry for the inconvenience.

with the send error report and don't send option to microsoft.

i have no clue y it isnt working but i need help getting it to work PLEASE HELP ME!!!!
