The singleplayer in F.E.A.R. has to be the best I have ever seen out of any game I have ever played, and the AI is very well programmed. The multiplayer, however, sucked.

Try Prey. The singleplayer in that is the best I've seen in quite a while.

Well, if they made it longer then it would have ended up just like Doom 3 where it just repeats and repeats and repeats with boredom.

I found Doom 3 one of the most annoying games to play. The fact that throughout the entire game you cannot see what the hell you're doing is just plain stupid. Having to switch between a gun and a flashlight every few seconds, even during fights, was annoying as well.

Other than that I thought Doom 3 was an alright game.

I hate Doom 3:

"Copy - Paste another 20 minutes onto this game guys! We need to make it seem long enough for the sticker price."

I hate even more the new Turok that they are making look just like it. They even changed his name..bleh.

Joshua Turok...Its Joshua Fireseed b*tches.

This is easily the most insane fun I've had in a while. Looks like I have something to hold me over until Team Fortress 2.

This is actually really fun, and looks good even with low settings.

Heh, I've already adapted after two games.

It seems kinda chaotic. It's just spawning and dieing every 15 seconds. I like the more structured combat in CS:S. Just my opinion.

I'm hosting a TDM Server right now. Called Doitle's TDM. If you see it join, I'd like to test out the dedicated server program.

If you think it sucks, then stop posting in this thread. Or better yet, explain why you think it sucks.

This is a thread about FEAR Multiplayer. Therefore, opinions about this, are not off topic in this topic. Along with that that, you took my post too personal, obviously, because my post is just an opinion.

On a side note, my post was specifically pointed towards Doitle. If it was not, I would not have

quoted him.

Chill.

I didn't take your post personally. I didn't think that you were quoting yourself in response to Doitle. I thought you were simply quoting yourself to reinforce your opinion that you think it sucks without giving us a reason why, which is why I told you to stop posting. At least Doitle actually gave a reason why he dislikes it, instead of just saying it sucks like you originally did.

I should have typed my reason out, but my reason for disliking the FEAR Multiplayer is the same as what Doitle had stated. At the time of my post, I had no reason to restate what had already been said.
