Ok, let me give you some background first of all. I've been working with Level Editor for Renegade and modifying some of the original maps. But now whenever someone kills another player or gets killed the server crashes. I can't figure out the problem, I hope it's not the modifications I made to the maps, it even happens on maps I didn't modify. I did get a server.dat error so I reinstalled the FDS but it didn't help. I need some serious help here. Nightma12 asked me to post my crashdump.txt so here it is...

Exception occurred at 004B4506 .text:004B4506 (SERVER.DAT)
