Ive started this Renegade Community a while ago but recently i opened it to the public as it being a "closed" type community.

Anyways im opening it as of 8/11/06 And i seen a big ammount of people asking to join my staff.

We are getting a dedicated server (box) to run severel renegade servers and perhaps even a few on other games.

We are planing on running my CrazyAOW + CrazyCTF mods.

We are in need of some dedicated users willing to help out.

We are considered a "Multi-clan" Community as most of my members are Owners/admins in other clans and my forum being the "head quarters", Thus comes the name RenForce.
