Hi guys,

I have worked hard this weekend to finishing bringing my new website online. This is completely unrelated to Renegade or BHS, it's just a cool idea I came up with several months ago and finally started. The URL is:

<http://entertains.us>

Go check it out and find out what it's all about. Join up if you'd like.

Also, if you have a digg.com account, I'd appreciate it if you'd "digg" this:

http://digg.com/software/Entertains_Us_goes_live_Fiction_blogging_community

great! im signing up now.

i found an error, i don't know if it is a bug but it is on the signup page:

Warning: in_array(): Wrong datatype for second argument in
/htdocs/entertains.us/wpmu/wp-includes/wpmu-functions.php on line 881

<http://entertains.us/wp-signup-nospam.php>

it was when i was choosing a domain name

typo?

i like the idea if fiction blogs, i will try to write a good one. i have signed up as daniel.

help-linux wrote on Mon, 14 August 2006 12:19Warning: in_array(): Wrong datatype for second argument in /htdocs/entertains.us/wpmu/wp-includes/wpmu-functions.php on line 881

Looks like it tried to use in_array on something that is not an array...

```
if ( is_array ( $array ) )  
{  
## in_array() line(s) ##  
}
```

would fix it

It looks like a nice site, but not my kind of thing. Still, GJ with it

It's not my software... it's Wordpress. I'll look at that later -- bed calls for now.

if you post the code (if you can) i could fix it. php is my strong point.

I've been a professional PHP coder for 6 years. This is well within my control. I will deal with it later.

That relly isn't my cup of tea but good luck with it Crim.

If I come across someone whom might be interested into fiction blogs i'll point them your way.

Thanks, guys. I think that error is fixed. I'm using cutting-edge nightly builds of Wordpress MU so stupid bugs like that can slip in. I worked around it until they fix it.

Finally, a place where Hardkil can get away with being a 26 year old ex-marine, EA exec, IT technician.....

EDIT:with friends!

I'm still getting a
ErrorWarning: in_array(): Wrong datatype for second argument in
/htdocs/entertains.us/wpnu/wp-includes/wpnu-functions.php on line 881
, but it doesn't seem to be impeding my signup process at all. Just thought I'd let you know,
Crimson.

What happens when you try?

Regarding the "array" error - this is just a warning and should not impede you from creating your blog.

[View Forum Message](#) <> [Reply to Message](#)

There's no actual link to the profile on the site, but the address it tried to send me to after login in was <http://entertains.us/wp-admin/profile.php>

Clicking on the Site Admin link brings me to <http://entertains.us/wp-admin/> so that might have something to do with the problem.

It says "You do not have sufficient permissions to access this page."

Regarding the "array" error - this is just a warning and should not impede you from creating your blog.

I think you probably already know this, but if you do
error_reporting(E_ERROR);

It will suppress the warning messages, and only show fatal errors that stop the script running.
