A few of our clan allies NXC made this video, pretty sweet 360 arty flip in it - take a look.

You can't. Instead, you drive the vehicles onto the wall on C&C_Walls_Flying, and then drive the vehicle *ONTO* the transport. Then you fly the transport over to the center and drop off the vehicle. It's quite delicate... one wrong move and the vehicle falls.

I know all too well what one wrong move does.
