Hacerfora was in RenArchive running RG and using a one hit kill cheat.

He admitted to it and it was VERY obvious he was using it when he'd drop 3-4 havocs, mobiouss, and others with one shot from ANYTHING.

I also have a couple SSs, but no video cause it seems to have f'ed up while recording...

Please fix whatever caused this.

I'll post SS's once they finish uploading...

it is VERY obvious.

Evidence will be posted tonight sometime.

EDIT: Here are SSs.

Him one hitting with Shotty across Nod's base:

Him one hitting with shotting from opposite side of strip to inside hon:

Another one hit across strip:  
<http://img172.imageshack.us/img172/7643/rennypic11ih9.jpg>

How surprising...another one hit:  
<http://img172.imageshack.us/img172/8961/rennypic10uu4.jpg>

Another one hit, this from ref to opposite of ob:  
<http://img112.imageshack.us/img112/8700/rennypic9nd5.jpg>

I apparently missed the SS of him being connected to RG. But, I am 100% CERTAIN he was connected to the network.

The previous game, he joined in the last 2 mins or so and raped countless ppl with minigunner, chaingunner, and later a laser chaingunner. Every kill was in one hit. Their retarded bot didn't allow poll or vote kicking and no mods were present.

Now, I'm not sure how this bypass worked but know he did it and just ask that it be fixed...

~Thanks

i personally dont think the ss are enough proof, as you only show you being dead in them, but you didnt show us how much damage you had before he shot you.

ill keep an eye out for him though.

Lmao, look at the game times. Less than 10 seconds between kills. Look at that range of the kills. All were with the shotgun...

Exactly. Enough proof that's he is cheating. Which the17doctor can't see, is strange. Unfortunately though, no proof that he was running Renguard, there is nothing BHS can do.

Too bad you "missed" that ss aye.

You could always ask the server owner/admin(s) to provide some SS from IRC saying he wasn't using RenGuard.

even though he was a shotgunner and killing at range, it is still not enough evidence. reason; what if he picked up a crate/dropped sniper rifle and was killing through head-shots?

just sayin'

btw, im not saying he isnt cheating, im just pointing out ways this could be legit

He WAS using RG. Myself and a few others in game checked a couple times.

And you can see in the pics that he doesn't have a sniper rifle. First, look at him holding the SHOTGUN, next look at his stance. Both equate to him killing at extreme range with the shotgun, not a sniper rifle of any sort.

And there is no way to tell who connected to RG and when?

I'm working on getting ahold of the server admins, but they seem to be offline most of the time :/

Indeed, Confirm it with asking the owners/admins to show proof of him being connected to RG. Also showing logs of the IRC. As The pics to me were a bit blurry and I could tell what charcter it was.
