Yes, the server lead by A1Game and his cheater son, the infamous Sunami3 is officially dead it seems. Fed up with the bullshit, Me and a few other 'regs' led a..sort of coup and, with the help of the pain series, an Adolf Hitler collage and babyfuck, A1Game finally seems to have given up on the 'only cheat free server in renegade'. GG Guys.

Yep, the corruptness finally reached its breaking point.
It was complete bullshit I tell ya. I mean, in mid-game, I ban myself, and they all go "OMG WTF? U CANT DO THAT! NOOB"

Still... honestly.. who kicks people for saying "N00b"? -_-

I hate it when people think I'm associated with them, because I have "a1" at the start of my online nick. However, I could never join that server for the same reason, so there's always a silver lining.

...why would he blame his sister and his dad?!

People who don't even play?! I mean if you want to blame people who don't play, blame someone who is in the house and doesn't play... like snacklady (his wife)

And for the rest of you, the server isn't down. It is still up.

And you can't go on their forums without being a member, and A1 needs to evaluate you before you become one so, no a link would be worthless.

I highly doubt that is the actual reason you were 'banned'

If it was, it most most definitely NOT A1 who did that. But there are many other mods on the server that are... "jumpy" when it comes to cheaters.

Yeah.. I joined a game on Mesa, got an artillery, A1 was coming in with a mammy from the left side of the Nod base, so I kill him. He says, "You do too much damage." and the next thing I see is the server listings.

Don't remind me about Xil. Omg worst admins ever.

When the Airstrip was down and I had the last vehicle on Nod, the admins kicked me to steal it.

The admins kicked me because I asked why they changed my team.

The admins kicked me because I refused to play a funwar at 1:00am

The admins kicked me because I constantly sniped one of the Xil members.

The admins banned me for not using Renguard.

I remember a time when one clan stood out as the most infamous, obnoxious, yet kinda awesome clan in all of Renegade. Where they commemorated their bannings in a hallowed spot of the Internet called BanHammer Hall. A clan in which one member became the most reported n00b in n00bstories history.

The clan I speak of is the horrible, terrible, eat-your-heart-and shit-out-your-soul Clan FUD.

May they rest in peace, or burn in Hell.

Wow, about fucking time people actually condemn the cheating bastards. I thought it was an inside joke. Every time I'd join the 4 vs all with a greeting of "how are you cheating mother fuckers doing?". I was bombarded with "they don't cheat", or "they use teamwork and we just suck." The cheating didn't annoy me as much as the naive idiots that would defend them. Every time I asked sunami for a test, a1 would reply with "you don't need to test him. He doesn't cheat." Never did get a test. If enough good people joined to overcome the cheats, they would announce the server was going to shut down in 5 minutes. The pathetic, bullshit faggots still don't bother me as much as the dumb asses that would defend them.

You actually orobably could technically call them cheaters, though I don't think they use an objects file or anything like that. If you play in there and watch your KBPS, you'll notice that it will be capped at 10 or 20. I'm pretty sure that A1 has everyone on the "all" team capped so that they'll lag like hell, while he makes sure that the 4 get a decent rate.. Giving the impression of them being extremely good.
