Was going thro my server.ini etc files for my aow server, and I wanted to know whe I could enable recommendations for highest K/D Ratio, and maybe others if I later felt like adding them?

Right now, BR only recs mvp (most points), and most kills

What about rec'ing players for destroying a single building (ie:ob), instead of just 1 rec for destroying 2 (ie:ob and hon)?

And if ya destroy the other, you get that rec too...

Its just logical to me

Not true,

once i was palying in All Out Uk, and I got rec'd for having the highest K/D ratio of 0.8.....

All out uses NR, not Brenbot.

MVP award needs at least 500 points
Most kills needs at least 10 kills
Best k/d needs k/d of over 1.5

Yes i know it uses NR,
and thanks danpaul for that, but is there anyway I could manually change that on my part?

ah, amunra, I know you modify brenbot for people. But I wouldn.t waste your time on this modification, I am including settings in brenbot.cfg for this in 1.43 build 19 anyway

EDITED: Fixed typo

well if you look in the private beta test forum, build 19 already has these options added, which will be released in the next few days.

And it's not a case of FIXING it, it was never broken to begin with.

Lol, good point, "editing" should be the term.

And Im then looking forward for that release
