I get the following thing:

Patch Error: Wed Sep 13 19:57:40 2006

Old File does not exist

when i try to update generals (First decade box), someone knows a sollution for this thing?

What patch are you trying to apply? Could you perhaps get a screenshot. If you're trying to update Renegade to 1.037 and you have TFD then you dont need to.

Renegade from TFD (The Final Decade) Already has Renegade patched to the latest. If WOL/XWIS is returning no servers then you probably have something in your data folder that's preventing you to connect properly.

This is a well known bug for damage hacks. (I'm not saying you have cheats, it's just an example.)
