Hello.

Some of you may remember <http://www.game-maps.net> which used to be hosted by MP, well we got it back up again like it used to be, all the downloads you want for renegade are there, be it newmaps, skins, modding and everything elas, you also can download CCS maps.

In the coming weeks, we be adding more maps to the site which was missing, also new skins and anything elas we can find.

If you got any maps for renegade or css, skins or mods that you would hosted by Game-Maps.NET then we can host them for you.

Also people who have been looking for the ubermappack can get it again at the site, the pack contains 247 maps, also contains CP1 8might be updated to CP2) and new sounds.

Enjoy.

Clan is still around, you can still find them at their website and forum, but take note, mp-gaming had nothing to do with mpclan.
