Srry but it is ture anyone can tell you that EA is fucking runing out of idea's.

The story line's of C&C are the following.

GDI v nod
Allie's v Sov's

I see no China v USA in that do you?
There for make's me think they are runing out of idea's and trying to update C&C witch wil never happen.

If you ask me i think they should stick with nod GDI Sov's and Allie's befor they dig them self in a hole they can't get out of.

Iam still w8ing for some one to sou the hell outa them for stealing a name that has nothing to do with the REAL C&C.

All this is gonna do is star a war with us and China.

If you wana keep C&C alive keep GDI v NOD and Allie's v Sov's.

Dont not try to fucking steal a name and put some diff kinda shit in the game.

That is my point.

Key word in that, Quote:if you ask me

Which no one did, and wtf you talking about anyway. War with us and China. Wake up kid, its a game. Fictional, assuming you know what that means, theres no GDI or NOD in real life man. Shut down your computer, get some sleep and come back in a few days when the acid you are using wears off.

Oh quit moaning. Generals was made to fit in with the current state of affairs on this planet (Terrorists, China becoming a superpower etc.) and it wasn't such a bad idea. The only reason it's crap is that it completely ruins the C&C running storyline.

Now, back on the subject, is XWIS down for the other games too? If not, then we have a right to formally complain, seeing as this is the second time that's happened.

I agree with all of it, but could have stated it more politely in the proper topic.

I don't agree with EA running out of ideas.

I think EA sucks, and mainly that's because they buy out good video game companies for their brand names and titles.

That and they ruined Sega's sports series, which was the only sports series I liked.
They kept stealing 2K's ideas for everything anyway.
Sports gamers don't know the difference. They think EA makes it all up.

I like how Tiberium Wars looks, but...wasn't it called Tiberian Twilight, and previewed like a week before EA bought Westwood?

EA now looks at the company who's making Crysis. I wish EA would just die.

I think their games Syndicate and Syndicate Wars were awesome.

I'll give credit where it's due. I still hate EA though.

And Sony, and Activision (sucks with the Marvel license, and they bought the team that made Aggressive Inline) and I hate Squaresoft's games, but not the company itself.

I hate the creator of Metal Gear Solid. I think he's way over rated.

Long live Renegade.

Dude... apostrophes are for contractions and possessives. If you want to pluralize something, just put an s at the end of the word. e.g. There are 5 cats.
