---

I am Attempting to change what a Model looks like to the Lazer Fence.

" tiles\artist tests\dsapo\dsp\_torturewal.w3d "

Since i cnat use the DSPO things server side, and i am attempting to change the Objects > Simple objects to the lazer fence. I had ot change to look like the Lazer fence but, when i attempt to move the Fence to where i want it, Level Edits shutdowns with an error.

Help anyone?

if you just want the Lazer Fence try this.

Object>Simple>Simple\_DSAP0\_Versions>Simple\_Sydney\_SandM\_Wall  
Make that, its a workig laser fence, it worked for me. I hope I didn't chnge something(then forgot about it) to make it work for me...
