i got a few q's about the sp campaign...Is it possible to...replace the entire SP Campaign with my own?replace the movies inbetween each mission with a mission objective type screen like (just a single picture with text like what's below, and maybe a picture of the map w/ objective locations and such to the side):Code Name: "Silent Thunder"Time: 0800 Zulu (8:00 am gmt)Insertion Method: SilentOverview: This is a hard mission and it should be taken with stealth etc etc etc.Objectives: 1. insertion 2. kill 3. winuse as many sp missions as i feel like using? is there any limits to number or size of the missions? (yeah i know i'm gonna have to think about download size and such)*End Transmission*
