I've got some questions;

When I use the new LE to export a .MIX it freezes, it suddenly does this. Any idea how to fix this?

When I make a map, what music may I put in? anything I like?

(I mean, do I need to worry about legality?)

And also, I'm making a building with aggregate

<http://www.renhelp.net/index.php?mod=Tutorials&action=view&id=3> everything works, only there are 2 buildings and they go trough each-other

try reinstalling le

i dont know what you mean in the second question

Did you make a duplicate exterior aggregate?

i dont know what you mean in the second question

I mean with that:

May I use any music in a map? isn't music copyright ore something?

Did you make a duplicate exterior aggregate?

No, there is only 1

When I place the model in a map, must the proxie and te model be there?

Usually, there should be an exterior model and proxies within it to call the aggregates and interior and such.

just put the music on anyway, i dont usally care about legality. if some person that regulates this looked on my computer they would have a field day. if software developers think they can charge me so much for a program i just download it ilegally.

as long as you dont publically release the map or advertise it with the soundtrack etc, your not braking any laws.

So, I may not use any other music then the 1 from Renegade?
