Everyone needs to register eventually. Maybe he's new to the community.

badmanh: You can check out www.tsugaming.com if you're looking for a place to hang out and maybe form a clan. Both pro players and n00b (new) players are welcome - and we play a variety of other games as well:

Renegade clans: 3
BF2 clans: 2
Generals/ZH clans: 1

Looking to form: Counterstrike, FEAR, CnC3, BF2142.

Thats exactly what we need more servers!!! YAY good idea Dave.

Now on to more intelligent things then Daves idea, Welcome to the community man. I suggest checking out tsunami, they arent full of Cheaters liek SOME communities.

Also not full of guys trying to make a quick buck off you

like some people here. "cough"Dave4989"cough"

<http://www.tsunami-alliance.com> <----- I suggest you go there and stay as far away from people trying to make money off you as possible.

Yeah I hear Dave4989 (14yrs old) is friends with Matix (15yrs old) ... maybe they can hook you up.

Or you can come hang with adults who don't cheat on their servers or try to steal other people's ideas. -_-

Your only jealous that Dave didn't go along and join your community. What is wrong with being friends? Oh right, you don't have any outside the net..

asked him if he'd be interested negotiating some sort of merger. But I was under the impression that the community was legitimate and not run by little kids. By the time he had got back to me, I realized that he was 14yrs old and his community was dead - so I blew him off.

But apparently that's good enough for your "community".

I don't have any friends outside of the net? Haha, is that the best comeback you could think of? I'm dating a model. I'm obviously doing something right, nerd.

Okay, wow... that's all I can say.

Matix, teh-pwnerer, or whatever the fuck you're calling yourself today, just shut the fuck up. You can't defend your cheating past and your immature antics. You shouldn't be running a community, and it's a shame that people trust you (even if they are cheaters, as well), but nobody can tell you that you don't have a right to.

F100d3d, you really shouldn't be playing childish games. I know that RenCorner is a bunch of cheating idiots, but you don't need to obsess over it that much and defend yourself over this kid's lame insults. You're 25. I know it's the internet, but you need to maintain some level of dignity. I know it's nice to brag about your hot girlfriend, but it's not really necessary.

About dave's trustworthiness, he told us (everyone on blackintel) he wanted a server, and we wanted it too (a good nice dedicated one) at first he said he could donate about 150 -100\$ a month later it became \$20 then it was 0 then \$50 and after that never heard of him again. We've heard he started his own community, and was trying to get some of our members there. Somewhere last month he said he would host somekind of snipe tourney, and from what I've heard, it went the same way of our donation.

/back on topic/

If you really want to have a new server I would recommend running it from your home first, just to see wheter or not it would get some attention, instead of directly hire one.

One piece of advise though, IF you decide to go ahead and hire a server or what ever, try to make sure dave won't have access, as I've heard he stole some ppl's server that way.

so you're the smoke guy, or who are you then? Well anyway that did make sure we didn't purchase a server too rapid and not one that would be too expensive.
