For the people that lived under a rock during the last years: A path Beyond and Reborn are both total conversion (TC) mods for Renegade.

A Path Beyond (APB) transforms Renegade to the Red Alert 1 - universe, Reborn does the same for Tiberium Sun. Both mods have joined forces and work together. APB already has a downloadable beta-version released and downloadable on their website.

People intrested in the development of these mods can check on the development blogs they have published on their website. They also include some nice screenshots.

A path beyond already published 5 of them, Reborn just published its first.

It's starting one since we moved. One will be posted every Tuesday and can be viewed on our new forums at CnC-Source.
