It's an objects.ddb radio modification (mod for short). Most objects.ddb mods are cheats, the others are usually harmless radio mods.

I used to have a similar mod back when RenGuard was new, since then I've been wrongfully accused of cheating and practically forced to use RenGuard as a result - At least, if I plan on staying in a server for very long.

Look for MatStally's Radio Mod. I may make a detailed tutorial on renhelp.net that's better than Yuri's on how to make these mods.

These are Radio mods. They are clientside only! They cannot be typed by the user! they can only be heard on the team of the one with these mods. They are not RG friendly, so if you're using RG this is a no go. They are classed as cheats since others do not know what they may contain (you can add cheats and radio mods together). They are objects.ddb files and will cause 'The 0 Bug' for the user (no damage delt, points and credits are reset as one shoots something that can be damaged).

Using objects.ddb to have alternate radio commands will replace some of your previous (default) radio commands. There are other, secretive, ways of having additional radio commands that are not as lame as objects.ddb. In particular, you can tell whether or not someone has used an objects.ddb file by asking them to go through all of their radio commands. If they still have all 30 of their old radio commands, then they are in fact not using objects.ddb and are thus unlikely to have damage or rate-of-fire modifications.

That is true, however, if someone who is highly trusted within this community to make these radio mods (or those without any knowlage on how to edit weapon ROF etc etc) they may not contain anything that will give them an unfair advantage.

I quite agree. The problem is getting the n00bs not to say "OMFG YOU HAVE OBJECTS.DDB, YOU'RE CHEATING!!!".

So so so so so many things wrong with what you just said. Let me explain.

You've been a disease to the community, so yes, you have done PLENTY to us.

I'll talk shit to your 14 year-old punk ass any day of the week. You think I'm scared of someone that young? You better be 6' 5" and 250lbs if you want to scare me away.

Congratulations tanner, you actually made me register to this site despite my horrid habit of procrastination. Might I say that you should not be ashamed, oh no, something like this HAS happened before; twice as far as I can recall.

You have claimed to be "brave" in one of your earlier posts, let me show you what bravery is, and it's cousin, stupidity.

Bravery - Also known as courage. The act of unyielding inner strength towards a situation despite the presence of fear within the person, resulting of an outcome that is against the situation that is provoking the fear. In basic terms, ignoring the primal instinct to flee or panic.

Stupidity - To be ignorant, sometimes resulting in an outcome that may provoke fear within a person. An example of stupidity would be committing brave actions without knowing their true

danger.

As I understand you posted that screenshot whilst failing to check if there are any tell-tale signs of foul play, thus resulting in your discovery as a cheater, therefore, you showed a strong sense of stupidity. Perhaps I may be wrong however. It may have been true that you posted that screenshot without being too bothered about your ammo count, that is until I read your future comments.

"U ALL BETTER SHUT THE FUCK UP I HAVE NOT DOEN SHIT TO YOU SO IF U KEEP TALKING SHIT THEN SAY IT TO MY FACE PUNK ASS BICTHES ALL I ASKED IS HOW DO U GET THE FUCKING RADIO COMMANDS THE REST OF WHAT I DO IS MY CONCERN"

Roughly translated: You all better shut the fuck up. I have not done shit to you so if you keep talking shit then say it to my face, punk ass bitches. All I asked is how do you get the fucking radio comments, the rest of what I do is my concern.

As soon as I read that the tables in my argument to the advantage of stupidity. Not only do you show a lack of regard for the possible outcomes of that comment, but you took the typical route of a generic 12 year old and decided to put it unintelligably and worst of all, in capital letters.

As I am aware this site does not condone cheating. You have posted a screenshot which clearly states you are cheating, you admit you were cheating, so therefore it is their business. You also posted this on a public forum, which consequently means that it's the public's business.

To conclude the point of my story I am going to sum it all up into 3 words.

"You are stupid"

I signed up here, so i could post this.

"Tanner" Or rather as ive known you "Liltrip"

Maybe you shouldnt be allowed in XpHaZe, or maybe they should be told, or they know..You know WHY im writing this..? Its because your obviously a cheater, and you did the following.

Crate Whoreing, I tell you.."Stop picking up the crates, your going to get SPY AGAIN and run around dieing because you dont know how to use it."

You reply with: "Shut up (Slang) (Slang) dawg, Ima cut you up white-bo y (Slang) Slang)".

And you continue as i say that your are an "Immature, little child, and because your acting all

"Gangsta", your going nowhere in your life..."

and more Slang..

Being your the Problem, You obviously Cry to a Moderator, ofcourse i get a warning twice, because im trying to end the dread of Under, But hey! Look! Your other name, "Tanner", has now been shown around, to the Renegade Community, i hope your Banned from ALL servers, and i hope that your life "Gangsta" Goes nowhere as it already is.

So, in end to this post, go Waste Your Life, "Dawg", If you so "Gangsta" get off a VIDEO GAME, where you obviously cant do anything at, because you suck so much, you ahve to cheat.

Go write something up with your poor Gram, and Spelling Issues.

Or you can go write some new Slang, and spam up UrbanDictionary.Com, I hope you call spell that ALL by yourself!

Or you and C and P it.

Congratulations! 80% of that last post was actual words.

Believe it or not, "u" is not a word. It is, in fact, a letter. Letters make up words. The only letters that are words themselves are "a" and "I."

But let's analyze what you said a little more closely.

"fuck u nerd as bitch"

Translated directly into Non-Retard, this makes no sense.

"Fuck you nerd as bitch"

Fuck him nerd as a bitch? That's just silly. You must be speaking Advanced Retarded. What you are looking for is "ass" instead of "as." These are separate words.

Adding punctuation, allow me to restate what you attempted to type before your brain got in the way.

"Fuck you, nerd-ass bitch."

This will take you a LONG way in life, because it has all these words which you dont understand, such as Dog, Cat, Cheater, Mom, Dad, Bitch, Ass, etc...

Also, its not 2007 yet.

Type this is, or atleast try to all by yourself.

PS: Im not a "nerd", you are too, because your playing a VIDEO GAME, and not running around 'Poppin a Cap In The White-Boy's Ass", Because your just a Whiney, Arogant, Irritating, n00b, who has to cheat at games because he sucks so much, he cant hit the enemy in the head.

A translation is required here. And, so you know, I am very mean. Sorry if it bothers you. I'm not normally this mean, but cheaters deserve what they get. Next point (assuming I have understood you) You had "hax". I don't care if you had one hack for a second, or serveral hacks for a year. You had them and they're bad. Third: (jelly get the logs please, I know I've asked once, lost them ^^) And no snot was involved. Fourth: "itohut" is whose native language? I'm genuinely interested now...

That is your Family..?

and there is a "Spell Check" at the bottom. Use it.

And, since that is a cheat, and Bots dont make you get Cheats, your not a Bot, just a fool.

You cant play with Bots, and have them give you cheats.

Dont worry, if i see you ill make sure to get you Banned.

Dont need a Cheater in the server.

Dont need a Cheater.

Actually, I don't think that's what he meant. It is possible that serverside, the MOD allows you to have infinite refills, or at least in that one Co-Op server (explains the alleged presence of bots). There have been 2 such weapons in Black-Cell: the "Ultimate Weapon" in the old Deathmatch Mode (looked like it had FR, but it was a weapon in category 0; it has since been removed), and the BC visceroid chem gun (see video), which shows a 100/999 clip with infinite refills provided by the server, and puts an extra but inaccessible chem gun in category 0 (still an active crate).

However, tanner/rafililtri/liltrip/etc., you are blatantly lying about only cheating in one server. You started in Black-Cell (BCServ4) by pistoling everyone, making everyone yell about you, and then you screwed up and hit the harv with your pistol ([20:02:47] <&BCServ4> Nod Tiberium Harvester destroyed thanks to rafililtri (GDI Soldier/Automatic Pistol)). We can see the last damage done to vehicles, and the last damage you did to the harv was above 500, and timed C4 does only 400, so I promptly banned you. 2 minutes later (I doubt there was enough time for your "friend" to log on, unless he was sitting at your computer with you), you were in JellyServ (a000), and I joined their IRC to find out that one of their regulars had also joined their IRC to complain about you. You only left XWIS after they banned you. You dug your own grave, and I have no sympathy for you. You may be right that the screenshot you gave us does not incriminate you, but your recorded actions and your lies do. Hopefully, you can be mature about it, admit you were wrong, and apologize, and although you may not be forgiven, you at least will have shown remorse, and won't be another embarrassment to California.

Might I also suggest that you study the key labeled 'Caps Lock' and attempt to work out the correct usage for it.

You're just a fucking idiot. It's plain as that. I don't give a damn if your screenshot was a server mod or not, you admitted to using other "hax".

The fact that you're an American with that horrible of spelling and grammar tells me that you're a fucking retard. Do you even know what a school is? It's that place where you go to during weekdays and learn things that are beneficial to your growth as a person and a beneficial factor to society as a whole. That and you're some wannabe hardcore mean mean black person*, but the fact is that you're white and are too scrawny to be something. Anybody can plainly see that. Grow up and aspire to make something out of yourself. You're a joke.

* Note: The context in which I used "mean mean black person" is to describe those "gangstas" and other idiotic black people who think that it's perfectly respectable to live the life of crime and talk like they have never seen the inside of a school. My usage of the "n-word" is not meant to be derogatory towards any black person with a respectable aspiration to make something out of themselves. Those people have my respect.

YOU'RE WHITE, YOU FUCKING RETARD. Stop thinking that you're black.

Oh, and I bet your cousin is having fun with all of his prison sex. I bet he and his boyfriend are quite happy. Maybe you should do something stupid like him and join them in a threesome. I bet your cousin-loving ass would enjoy that.
