Hello everyone
i got that topic name cause u can be a chicken in this server rofl
!chicken try it if u go to it

I just wanted to tell you about this awesome mod i found on one of the servers. Id like some of you to try it out at least once cause when i did i got addicted lol. The server name is: .Its not very popular yet but it is MEGA fun. Its kind of like kamuix's mod if you have ever played on his servers.

Server owner is Kyle, Mod was made by Kyle,MattStaly,WoQWizard,and others.

The server mode is RPG...but its a deathmatch at the same time. If you want rpg, just type !godon and you cant be killed. If you want to have some fun and kill others xD, just kill everything u see . The bot is kind of fragile so don't spam it please. I heard it has over 960 charecter commands, but obviously you can't have all those on one !help section. That's why he doesn't have all of them on lol. Also i heard that Kyle is making updates to the mod with more commands o.0.

Kyle is very busy and can't keep the server up all day on weekdays . Weekends it should be up 24/7. However, if you want to help keep the server up all day u could donate to him. Just talk to him at irc or email kyle : Admin@Roleplay-gaming.com

The maps are fun to. He has C&C_Beta2.mix,C&C_Carnage_Club_Extreme.mix, and C&C_Overlord.mix, along with some of the normal maps like walls and city. You can get some of the maps above at renmaps.

Liz

The server's on most of the time right?

I'm getting a bit sick of ordinary C&C Mode.

If so, why not join Fan-Maps AOW at the bottom of the wol listings, its not like normal AOW.

Because the players there are !forcerg happy, and the mods didn't like me enough to unforce me.

I have played the Fan-Maps servers before. The Co-op one is quite laggy for me but the Mission DM one is great.
Mainly, I play on Kamuix's server nowadays.

Yes this server is VERY MUCH like kamuix aow. only difference is anything you want, you have right in front of u. !light spawns a light tank. !hav1 makes u a havoc. !rail make u get a railgun. !btmutpet spawns a petrova for nod that attacks gdi players.
!refill refills ur health and ammo. Its just endless the commands. he's making more as well .

The server is not up all the time cause kyle needs donations for a server box . right now he runs it as much as he can.

Hello, I am one of the admins/owners of this server. This server really isn't like any other. You can get any item(we don't have them all) without buying it. Like liz said, it is a RPG DM. We are trying to fix some bugs that we do have on the scripts, but this server is very fun. It would be wonderful if you guys did join. The script are delicate because of the spammers in the server sometimes. We try our best to make this a good server for all. This isn't just RPG, it's rpg DM taken to a new level.

Good day.

It's funny how the nickname that he let me use has now been given to you.

Actually that's not funny at all.
