my renx expansion has been playing up, buttons not displaying images and the lack of tool bar.
gmax works fine, but i cant use it with renegade.

i dont know where i originally got renx from, so where can i find it's download?

p.s. i heard you cant download gmax anymore

Un install Gmax and Level Edit and re-download them

Links:

Level edit: <ftp://ftp.westwood.com/pub/renegade/tools/RenegadeToolsInstaller2.exe>

Gmax: <http://www.turbosquid.com/Download/Index.cfm?FuseAction=Download&ID=L567271&DLC=XFM83W83US>

After there both reinstalled Renx Should work fine!
