ive install renguard. everything installed ok.

was playing on the n00b stories server and was playing well. then got forced to use renguard (even tho it was running while playing on this server) and then got kicked off X(

people were accusing me of cheating even tho i wasnt and now i cant get back on even tho im using renguard =S

can anybody help?

thanx

If you are connecting with Direct Connect ensure that the nickname in the RG window (where it says welcome xyz) is the same as the one your actually using.
