How would i get it to work on NR?

So it show's it on website?

Subject: Re: Server Status On Website For NR

[View Forum Message](#) <> [Reply to Message](#)

nightregulator dont support this, only brenbot or the server is runing in gamespy mode is support this

you need queryport for this

Fifaheld wrote on Thu, 21 December 2006 05:40nightregulator dont support this, only brenbot or the server is runing in gamespy mode is support this

you need queryport for this

yes it does - there is a program out to do this by Dante

Subject: Re: Server Status On Website For NR
Posted by [Fifaheld](#) on Fri, 22 Dec 2006 07:22:22 GMT

[View Forum Message](#) <> [Reply to Message](#)

in brenbot you must only config the gamespy section..

```
#--Broadcast to Gamespy settings-----
Generate_Gamespy_Queries =1

# Generate independant gamespy queries, instead of quering the orginal GSA UDP Query
# handler. In WOL Mode, you don't have one.

GameSpyQueryPort =25300

# The query handler listens on this port

Broadcast_Server_To_Gamespy =1

# Broadcast the query handler to gamespy.
# If you enable this, YOU NEED TO SET "GameSpyQueryPort=<value>" in server.ini to 0!!!!
# BRENBOT WILL BEHAVE BADLY IF YOU DO NOT DO THIS!

# GameSpy_IP =80.154.33.245
```

and this has NR not....he cant not send too gamespy and this is the problem from NR :`(brenbot can this without a another programm...nr need another programm :` (

where give this programm from dante then?

DodgeThis wrote on Sun, 24 December 2006 08:03Is it possible to upload the html file automatically to a webhost through FTP or CHmodded file?
nope, has to be on the same server as the web server. although that would be possible, I'm definitely not doing that.

The BR plugin I just finished uploads via FTP... it can also be tied into the ranks plugin

Subject: Re: Server Status On Website For NR
Posted by [Nightma12](#) on Sun, 24 Dec 2006 21:55:09 GMT
[View Forum Message](#) <> [Reply to Message](#)

i will have a .php script released soon to do this

along with a playerlist too!

game_info.php and player_info.php

each php script will connect to the server via renrem and post player information onto the site

Subject: Re: Server Status On Website For NR
Posted by [danpaul88](#) on Sun, 24 Dec 2006 23:23:18 GMT
[View Forum Message](#) <> [Reply to Message](#)

connecting to the server via renrem seems like a waste of bandwidth and processing power, why not just upload a .txt file of the status every x minutes, and read that with the php files?

And mine also includes a playerlist, and their ranks on the server (as given by the ranks plugin)

Subject: Re: Server Status On Website For NR
Posted by [DodgeThis](#) on Mon, 25 Dec 2006 10:12:09 GMT
[View Forum Message](#) <> [Reply to Message](#)

danpaul88 wrote on Mon, 25 December 2006 00:23And mine also includes a playerlist, and their ranks on the server (as given by the ranks plugin)

That sounds awesome... When will it be released?

And is there any chance someone can give me the newest BRenbot? (because it seems every server has it already anyway..)

Subject: Re: Server Status On Website For NR
Posted by [AmunRa](#) on Mon, 25 Dec 2006 10:52:47 GMT
[View Forum Message](#) <> [Reply to Message](#)

as of right now, I'm working on getting it to display a playerlist and it will support renstats if installed.

Subject: Re: Server Status On Website For NR
Posted by [Fifaheld](#) on Mon, 25 Dec 2006 16:05:49 GMT

give it newer news about nr and queryport infos?

Subject: Re: Server Status On Website For NR
Posted by [jnz](#) on Tue, 26 Dec 2006 01:11:27 GMT
[View Forum Message](#) <> [Reply to Message](#)

the Sbot is in version 4.0 is going to be able to display all the server status. including LADDER on a website. without providing any FTP details. or even using port 21.

Subject: Re: Server Status On Website For NR
Posted by [Goztow](#) on Tue, 26 Dec 2006 08:36:38 GMT
[View Forum Message](#) <> [Reply to Message](#)

Only thing wrong with your analysis is that you analyse brenbot 1.41. 1.43 has full plugin support and is greatly customisable.

Fifaheld wrote on Fri, 29 December 2006 01:42you make a new plugin with queryport support for nightregulator amu?
are you talking about gamespy?

Subject: Re: Server Status On Website For NR
Posted by [Fifaheld](#) on Fri, 29 Dec 2006 10:32:52 GMT
[View Forum Message](#) <> [Reply to Message](#)

yes for gamespy and ase and homepage scripts what can read out the queryport info`s..... like my homepage script.... that what brenbot can.... infos send on queryport the gamespy/ase and homepage script.... this function need night regulator too.....

#--Broadcast to Gamespy settings-----
Generate_Gamespy_Queries =1

Generate independant gamespy queries, instead of quering the orginal GSA UDP Query
handler. In WOL Mode, you don't have one.

GameSpyQueryPort =25301

The query handler listens on this port

Broadcast_Server_To_Gamespy =1

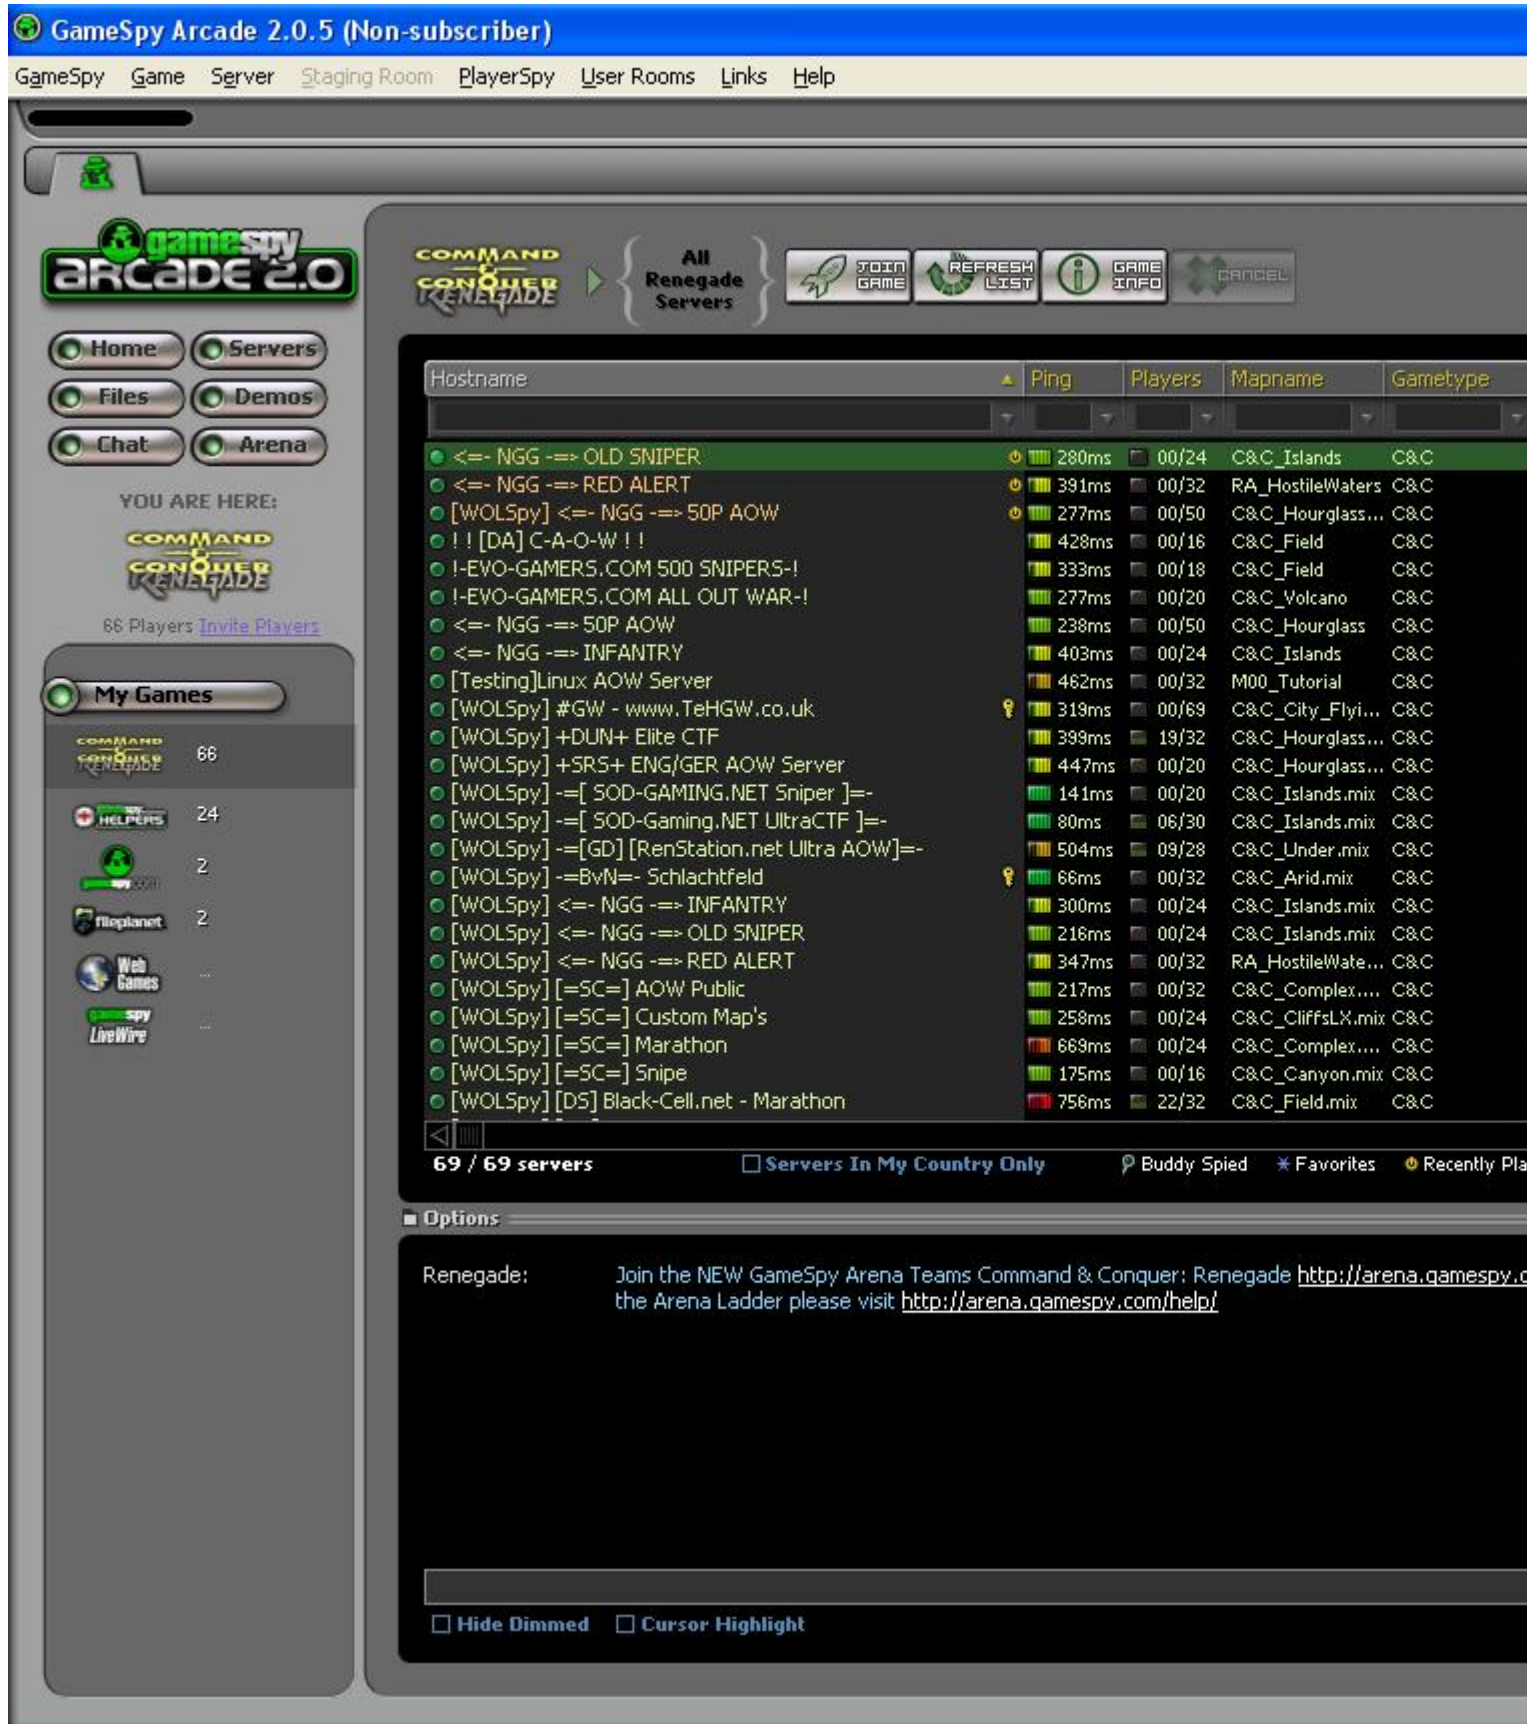

Broadcast the query handler to gamespy.
If you enable this, YOU NEED TO SET "GameSpyQueryPort=<value>" in server.ini to 0!!!!
BRENBOT WILL BEHAVE BADLY IF YOU DO NOT DO THIS!

GameSpy_IP =80.154.33.245

This is this what I mean.... this need nightregulator....
only brenbot can send this infos to gamespy / ase /homepage queryport read script
