Tx PlanetCnC.

It appears that there's a C&C-based Battlefield 2 mod called Conspiracy of Nod under development. The mod's Web site has a good deal of renders, although I haven't found any in-game screenshots yet.

It also seems they still need modellers, skinners, ... so if you feel you got the touch?!

I dont mean to revive the topic, but this mod has been around for a really long time (since Bf2 came out really).

Just trying to keep you informed.

I wouldnt really support this mod. They miscredit people for their assets.
